Sailing with Languages is a new initiative to have fun, learn to sail and develop confidence in speaking a second language for teenagers.

Students should have studied their chosen language for at least one year. No previous sailing experience is required. Each group of not more than five students will be taught by an Instructor with an Irish Sailing or equivalent European qualifications.

Training will take place around Howth and Irelands Eye in Howth Yacht Clubs fleet of J80 keelboats. The course will include a day trip to another destination if weather permits.

Why not organise a group of friends to do the course together?

Hot lunches with a choice of main course and fresh fruit are provided each day and are included in the course fee
